**Subject:** [External] Dominion Solar Tariff

Good Evening,

I've heard Dominion Energy is requesting to charge customers a fee for having solar! I certainly hope this isn't the case and if it is certainly hope they can't apply that to customers that already have solar.

I made a large investment in solar assuming a specific return on investment and payback period. To think that can be changed due to Dominion wanting me to pay for something that requires no additional work on their part is crazy.

It would be one thing if they wanted to change their net metering payments because then I could at least go with more batteries in my setup but if they are going to charge people just for having solar that is insane.

I certainly hope this isn't the case.

Thanks,

Andrew Stroman
